## We Would Like to Introduce Ourselves

A skilled, flexible service is just as important for smooth daily operation as high quality products. AutomoTec defines service as preventive maintenance as well as repair work after technical malfunctions. Quick and flexible reaction times with uncomplicated execution of the service offerings are of utmost importance. This is the only way to keep workshop “down-time “ costs under control and to communicate to the final customer the reliability and readiness of “his“ workshop.

The following products and areas are covered by AutomoTec’s quick, competent service:

- ▶ Testing and safety technology
- ▶ Emission tester, performance and function testers
- ▶ Lifting technology (surface and inground, pit jacks)
- ▶ Service equipment
- ▶ Emission roller testers, End-of-Line test systems

## Factory Transport

Upon request we deliver your products and systems directly to the installation location.

- ▶ Vehicles equipped with loading cranes
- ▶ Positioning of the floor assembly directly in the foundation
- ▶ Optimum appointment coordination between factory transport and service technician
- ▶ Service region: Central Europe
- ▶ 3 tractor-trailers with loading cranes

## Service Bases

The main office is located in Kempten/Allgäu. We have the following service bases for on-time support:

### **European bases (currently):**

- ▶ Spain
- ▶ France
- ▶ England
- ▶ Ireland
- ▶ Poland
- ▶ Russia

### **Worldwide bases**

- ▶ USA
- ▶ Singapore
- ▶ China
- ▶ Japan
- ▶ Australia
- ▶ South Africa

## Service Employees

We currently employ 54 people at our Kempten location and work in a worldwide comprehensive service network with 134 workers.

- ▶ Europe: 50 employees
- ▶ Asia / America: 30 employees
- ▶ Indirect employees (trade): 54 employees

## Service Readiness

You can reach us 6 days a week offering our unlimited services to you and your workshop or service operation.

Monday - Friday: 7 a.m. - 5 p.m.

Saturday: 8 a.m.- 3 p.m.

... nation-wide service covering all of Germany

## Performance Data

Annually Automotec fulfills more than 12,500 individual services such as

- ▶ Installations
- ▶ Maintenance calls
- ▶ Repairs
- ▶ Equipment check

Divided up as follows:

- ▶ Germany 60 %
- ▶ Worldwide 40%

## Your Advantages and Benefits

Service and maintenance become a calculable variable. This leads to a long-term and trusted cooperation with

### ► **Customers**

(Automobile manufacturers, test organizations, work shops and country-based projects)

### ► **Partners**

(from the MAHA Group sales network and the independent trade branch)

### ► **Employees**

(Technicians and service employees)

We have a large capacity of direct and indirect service employees waiting to serve you.

## Visions / Perspectives

We work constantly on optimizing our worldwide service network to offer realtime spare parts delivery and efficient service. The increasing number of subsidiaries / representations throughout the world assures flexible adaption to the constantly changing statutory regulations for testing requirements passed by the respective countries.

We keep pace with globalization and take care of our customers worldwide.

### **Our Mission:**

- ▶ Service partner for all products represented in the workshop outfitting branch
- ▶ Expansion of our international presence, service bases on every continent

## AutomoTec - Worldwide

AutomoTec offers customers a worldwide uniform service level, regardless of the location of the equipment and systems. AutomoTec can fulfill contractually agreed upon reaction times for service and maintenance of automobile manufacturer's workshop equipment and testing systems.

The de-centralized units existing under the AutomoTec umbrella guarantee optimum service around the world.

AutomoTec functions as a profit center with a team of seven in-office employees, 36 service technicians and four drivers for freight traffic.
